

Is Side Project 1: Auto Work Apps already good enough for us?
Or we can make it better...

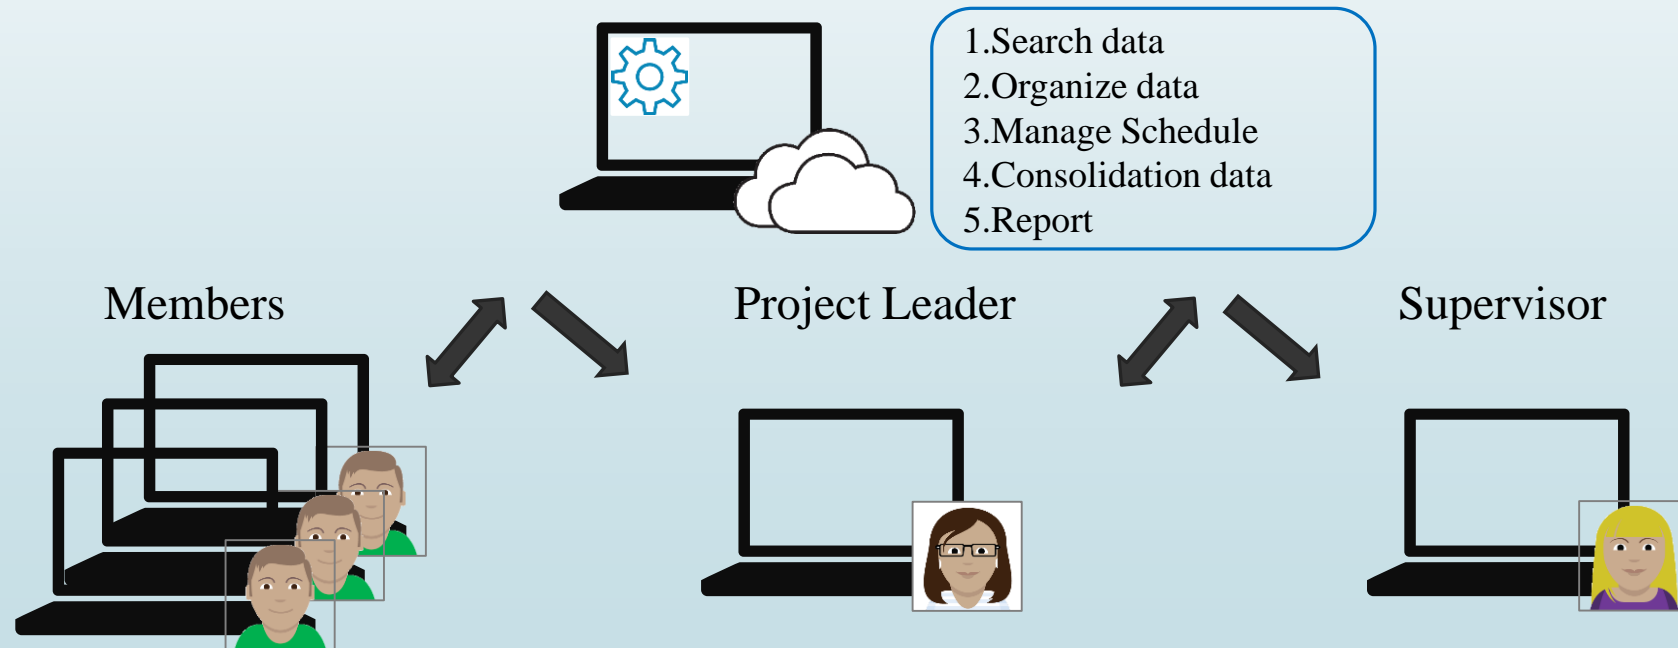

Side Project 2: Auto Work Apps on Cloud

Auto Work App on Cloud we can do...

By Apps we can do, we only need to send request from the internet

Advantage:

- The same with auto work apps
- Limit the staff numbers to maintain the service
- Collecting data for benefit calculation to avoid meaningless apps development

Implementation case

Transfer Auto work apps to Cloud

Prototype

- BOM Generator App on Cloud

Planning

- BOM Compare App on Cloud
- Inner Document Generator on Cloud

Need permission to access the company's intranet

- Component Approval Status Checking App on Cloud
- Material Request Mail Sender App on Cloud

Provide

- Not replace staffs' work, we replace every repeat works
- Release employees' time to enhance their productivity
- Make company more competitive
- One work for twice the benefits. 1.saving employees' working time, 2. Being part of AI tools
- Limit the staff numbers to maintain the service
- Benefit calculation of Auto Work Apps can be tracked
